Borton-Lawson Engineering  
613 Baltimore Drive, Suite 300  
Wilkes-Barre, PA 18702-7903

Gentlemen:

I would like to take the time to thank you for all your efforts in bringing the Wilkes-Barre Lighting project to fruition. This project had a few obstacles to deal with including the multimillion dollar theater project coordination and material delays. With the help and support of your firm we were able to meet all of our milestones and complete the project with accolades of all parties concerned.

I would especially like to mention Mark Boris. Without his dedication and professionalism the project would not have run as smoothly as it did. Mark not only acted in a Design aspect capacity, but as an excellent project coordinator. He made himself available for assistance to the City, the contractor and PENNDOT. The attention to details and accuracy of design was greatly appreciated.

Through the level of quality and assistance, it will be a pleasure doing business with Borton-Lawson in the near future.

Very truly yours,
