Survey

for Industrial, Commercial, & Residential Developers

Types of Services:

- Boundary Surveys
- Topographic and Aerial Surveys
- Minor & Major Subdivisions
- Industrial & Commercial Surveys
- Highway Occupancy Surveys and Permits
- ALTA / ACSM Land Title Surveys
- Aerial Control (State Plane & NAVD) w/ flight and mapping coordination
- As-built Surveys and Quantity Verifications
- Lot Stakeout and Metes and Bounds Descriptions
- PA Once Call notifications and Utility Coordination
- Wetland Delineation, Report, Jurisdictional Determination, and Permitting for Mitigation and Driveway Crossings
- Quantity Verification

Our Advantage:

- Three full-time & fully-equipped Field Crews with the ability to put a forth in the field as needed. Proficient in the latest equipment and technology including the 4 GPS Units and 4 Total Stations with electronic Data Collection.
- Whether using our in house engineering Staff or using another Engineering Firm, our Survey Department has worked with numerous client types with specialized needs.
- Some other clients types that we do work for include other Engineering, Surveying and Architecture Firms, Residential Developers, Commercial developers, and Government agencies such as PA DOT, Army Corps or Engineers, Pennsylvania Turnpike Commission, DEP, County Engineers, and Local Municipalities.
- Four Registered Surveyors on staff to ensure the job is done accurately along with written Standard Procedures and Quality Assurance Procedures on all projects.
- The Borton-Lawson Survey Team understands that the survey is the foundation for the design, construction, and all other phases of the development. A complete and accurate Survey is one of the key factors in a successful development.
- Willingness to team up with other Professionals to work on projects that may be time sensitive or that require more manpower than their staff can handle.

Imagination. Delivered.
