Wastewater

The Borton-Lawson team has **complete in-house capabilities and a proven track record in the area of sanitary sewage planning, design, and operations.** Our staff consists of Professional Engineers and Licensed Wastewater Treatment Plant Operators with experience in design of collection and conveyance systems, pump stations, treatment plants, on lot treatment systems, and spray irrigation systems. We are consultants to numerous Municipal Authorities, private utilities, and industrial clients. We have excellent relationships with all regulatory agencies including the Pennsylvania Department of Environmental Protection.
